The material covering the information strip could be masking tape, or black 20# paper and should be easily removable without damaging the board. The Architect's firm name must be covered while the projects are being judged or the board will be disqualified. The project name may appear on the Board in photos, sketches etc.

3. The Design Board submission must be accompanied by a disc (one disc per board) that is clearly marked with the firm and project name and contains the following items.

   Four to six JPEG images of the project. Each image must have two files; a "high resolution" and a "low resolution" version.   The "low resolution" file must conform to the following size requirements: a maximum of 350 pixels wide and/or a maximum of 350 pixels high saved as a JPEG file.
   A text file with the description of your project saved as a PDF file. The description should be one to two paragraphs in length, maximum one page.

   Should your project win an award, you must submit a release form from each photographer or copy write owner for AIA NJ to use the JPEG photos that you submitted.   The release form will be sent to the winners. Execution and return of this release form is required as a condition for publicizing award winners' photos. No award winner photos will be publicized without the return of an executed release form.
